ATTRACTIONS TONIGHT

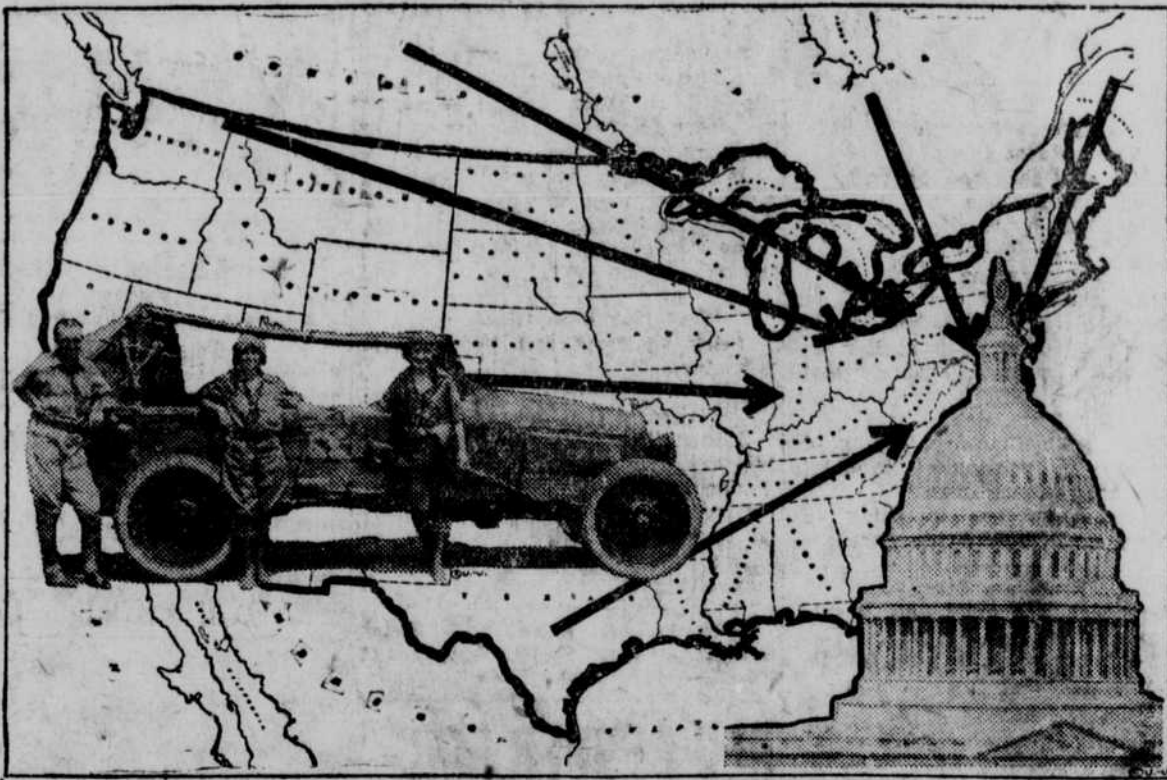

COLISEUM—"The Broadway Madonna" Sherwood Sisters and Company in farewell vaudeville acts. **PALACE**—"Not Guilty."

COMING ATTRACTIONS.
COLISEUM—Malvina Longfellow in "Possession."
PALACE—William H. Strauss in "Solomon in Society."

VAUDEVILLE CLOSING
AT COLISEUM TONIGHT

After a successful engagement of two weeks in which six different programs of nine vaudeville numbers each have been presented, the Sherwood Sisters and Company close their time at the Coliseum tonight. Last night the program attracted another bumper house and the audience enjoyed all numbers, vocal, Hawaiian dancing, instrumental and the ensemble numbers. The Sherwood Sisters and their company, six members in all, gradually worked up hundreds of admirers in Juneau and the last night, another large audience will probably be on hand at the Coliseum tonight to give their favorites an appreciative send-off.

Washington Mecca of Maccabees Caravans of Two Nations

DETROIT, MICH.—Washington will be the Mecca of Maccabees from all parts of the United States and Canada in the great motor caravan to the quadrennial convocation of that order in 1925, according to plans made public by A. W. Frye, recently elected supreme commander of the Maccabees. Headquarters of the society here are already engaged in planning caravan routes which will pass through the leading Maccabee centers.

"The convention at the national capital will come as the climax of a fifteen month campaign for new members," said Mr. Frye, who

originated the idea of using the automobile as a major means of transportation to this meeting. "We selected Washington as our convention city from patriotic motives. Allegiance to their country is part of the obligation taken by our members. A visit to Washington will be an inspiration and education to every true American. Through the caravan idea, we are making it possible for Maccabees to be present at very little expense to themselves.

"Many free trips will be given as a reward for activities in the membership campaign which ends in March, 1925. Actual making up of the automobile parties will

follow the close of the intensive drive. The routes, meeting places and other details of the international expedition will have been worked out by that time.

"The Maccabees have always stood for those influences that make for better men and better Americans. The knowledge gained by passing through a country in the leisurely manner of the caravan will draw the brothers of the East and the West, the North and the South, of the state and the Dominion closer together. The caravan idea is meeting with enthusiasm throughout the quarter of a million members of the Maccabees on both sides of the border."

on the farewell program.

"Billy" Cooper, under whose direction the company is appearing, is an old-timer in Alaska and has renewed numerous friendships among the soundings, and like the members of the company, made many new friends.

"NOT GUILTY" LAST TIME AT PALACE

An uncommon plot, a colorful production filled with enough drama to have several ordinary pictures; a brother assuming the guilt of his twin for a crime which makes him an outcast and how the girl twin brothers both love follows the man she loves best, is told in the story "Not Guilty," at the Palace tonight.

Paul Ellison, the son of wealthy parents, while supervising a railroad through the heart of the Adirondacks, has met and fallen in love with, Elisa Chetwood. While out riding, Elisa's horse is startled by the shock of an explosion and bolts. Paul spurts his horse after her and just catches up with Elisa as her horse plunges over the cliff. He snatches

her from the saddle and as she lies in his arms with closed eyes he talks feverishly to her of his love. She becomes conscious of what he is saying, and pulls away from him, telling him that she is already engaged to be married. Then the story develops.

"BROADWAY MADONNA" MAKES HIT AT COLISEUM

For straight-forward, gripping drama it would be hard to beat "The Broadway Madonna," revealed for the first time yesterday at the Coliseum theatre, and is on again tonight.

Here is a motion picture that reveals a strata of life in which few, if any, local folk have ever ventured. It rips aside the curtains that shield the swift-moving, tinsel-decked life of Broadway and the New York cabarets; the life of the most wicked street in the world with its dull-eyed sharpshooters and its sleek and wicked women from all parts of the world.

It is clean-cut entertainment, this surprising drama called "The Broadway

Madonna." It is not preachy. It is not unawakened sentimental. It is strong and virile and goes straight to the point. The story concerns a weak-willed but beautiful young wife who goes to foolhardy lengths to do the bidding of her husband. Eventually she blunders and the whole world of hopes comes crashing down about her.

A fine note of romance and an engrossing element of mystery add to the entertainment value of the production. Dorothy Revier, who bears a striking resemblance to Gloria Swanson, is the wife. Others in the cast are Jack Connolly, Harry Van Meter and others.

"SOLOMON IN SOCIETY" AT PALACE TUESDAY

Uniquely combining laughter and pathos with a moving, human story and natural setting, Wm. H. Strauss in "Solomon in Society," with Brenda Moore, promises splendid entertainment at the Palace Theatre, Tuesday and Wednesday.

The star is excelled by none and equalled by few in the portrayal of characters like I. Solomon, the lovable tailor of the tenements whose genius and industry win for him a Fifth Avenue establishment and whose wife's social ambitions lead him into an intense dramatic crisis. He is quaintly humorous, typically good-natured and touchingly unmindful of evil in the people around difficult role of Rosie Solomon brings him. While Brenda Moore in the a new personality to the screen and proves herself an able foil in her varied scenes.

"POSSESSION" COMING TO COLISEUM TUESDAY

Bearing the strongest recommendation of Sarah Bernhardt as one of the greatest motion pictures ever produced in France, "Possession" comes to the Coliseum tomorrow and Wednesday. It was produced by Louis Mercanton, the famous French producer, and is being distributed in the United States by R.C. Pictures. It is virtually the bid of France against the picture productions of other countries in Europe and shows that the Republic is making great strides in the industry. Mr. Mercanton, especially ranks high as a film producer in Europe and "Possession" is reported to represent his art at its very highest.

"Possession" is based upon the novel, "Phroso," by Sir Anthony Hope and is a clean-cut tale of romance and adventure, much of the action taking place on a mythical island in the Aegean Sea.

WEATHER POST IN THE ARCTIC HELD BY WOMAN

SEATTLE, March 17.—Uncle Sam's farthest north weather station, at Point Barrow, on the shores of the Arctic Ocean, is in charge of a woman, Mrs. Mollie Ward Greist, who makes daily observations in the land of the Midnight Sun and four or five times a year sends reports to the outside world by dog team, Coast Guard cutter or trading steamer.

Mrs. Greist is the wife of Dr. Greist, surgeon in charge of the Presbyterian Mission Hospital at Point Barrow. Since 1920 she has been Uncle Sam's top-of-the-world weather observer where she makes reports on the aurora borealis and sun dogs, technically known as parhelia, a succession of false suns seen in the Arctic sky following extreme refraction of the air. From three to five suns may frequently be seen, explorers report.

That Uncle Sam's farthest north weather observer is a woman was learned when arrangements were made by M. B. Summers, who is in charge of the Seattle station of the United States Weather Bureau, to ship some wind velocity instruments to Point Barrow, aboard the famous old Coast Guard Cutter Bear. The vessel will sail from Seattle May 2 and after spending considerable time at Nome and in Bering Sea, will reach Point Barrow in August with the instruments which will be used in recording the antics of the Arctic winds.

Mr. Summers said that Mrs. Greist makes daily observations and compiles monthly reports which are sent out of the Far North three times in winter and once or twice in summer. The Weather Bureau hopes to have a government radio station established at Point Barrow which would enable Mrs. Greist to make daily reports of conditions near the top of the world. The next weather station south of Point Barrow is at Noorvik, on the lower Kobuk River, which flows in a westerly direction into Kotzebue Sound. There is a signal corps radio station at Noorvik which sends weather observations to the outside world twice a day.

SEWARD IMPROVEMENTS
The San Juan Fisheries and Cold Storage will rebuild its wharf at Seward this Spring, placing new creosoted piling under both wharf and building. The new wharf will be on the site of the old one and will be a modern affair. Work will start this month.

DRINK WATER TO HELP WASH OUT KIDNEY POISON

If Your Heart or Bladder Bothers You, Begin Taking Salts.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year (advertisement.)

PONCE DE LEON TO VISIT FLORIDA;— ST. AUGUSTINE TO HAVE HUGE PAGEANT

Thousands to Take Part in
Celebration April 8th,
9th and 10th.

ST. AUGUSTINE, Fla. — (Special)—From out the sunlit waters of the Caribbean, a caravan laden with the chevaliers of old Spain and in command of Juan Ponce, Knight of Leon, searcher for the fabled Fountain of Youth, will draw near the beach at St. Augustine, while from the shore thousands of Indians will watch with wonder, these white winged birds that bear to them across the seas strange gods in shining armor.

Such will be the scene on April 8th, when the three day Ponce de Leon Celebration, one of the most picturesque pageants in the south, takes place here. Thousands from all parts of the country will attend to witness the historic festival. More than two thousand persons will participate, gaily costumed as French, Spanish and English Chevaliers of the 16th and 17th

centuries, as monks and as Indians. Satins, silks and laces, pikes and broad swords will lend a touch of color to the parade and pageant. There will be sports events and night spectacles, including the capture of a stockade on the site of the ancient village of Seloe by the Indians. April 8th will see the landing of Ponce de Leon and his courageous courtiers from their ancient caravels. April 9th will depict the arrival of Menendez and his followers at the present site of St. Augustine. April 10, the third and last day of the celebration, the Spanish Queen gives audience to Ponce de Leon, Don Pedro Menendez and their retinue.

This huge festival attracts celebrities from every part of the country and many from abroad, and they linger here for many months after the festival is over. Indeed, April is the finest month of the year in St. Augustine and there are hundreds of interesting places to visit. Among the outstanding hostilities that play hosts to the thousands who come to witness the pageant are the Ponce de Leon and Alcazar Hotels. They are veritable palaces.

Thirty-five years ago Henry M. Flagler started to invest his millions in the Florida East Coast. He put up the finest resort hotels in the world, built the Florida East Coast Railway down the coast and across the ocean to Long Key and Key West, spent millions on Palm Beach and Miami, when they were unknown, and became the pioneer in making Florida, America's winter playground.

Old Ft. Marion on the edge of Matanzas Bay, the greatest historical relic in the United States is visited by every new comer to St. Augustine. Its construction was begun by the Spaniards in 1662. One hundred and sixty four years later, by the sweat and toll of Indians and Negro slaves, it was announced as completed at a cost over \$30,000,000.

St. Augustine, the oldest city on the American continent, with narrow streets, Coquina buildings, overhanging balconies, and modern improvements, is working hard to give a royal welcome to the thousands who come to see the Ponce de Leon Celebration which this year will be conducted on a higher plane than ever before.

Attention Republicans

A plan is on foot to extend to the Indians of Alaska all the privileges of whites, including the right to sit on juries, to vote irrespective of mental qualifications, and to send their children to the white schools to mingle, regardless of physical condition, with white children.

An organization has been perfected to carry this plan into effect; and the organization has been adequately financed.

We do not believe that the Indians are yet ready to assume all the duties imposed on the whites; and we do not believe that the Indians generally have sufficient knowledge of the rules of sanitation to insure the safety of white children should both races be admitted freely to our schools together. For these reasons we have declared in favor of a law to prevent the mass voting of illiterate Indians; and we are against the law that will be proposed at the next Legislature, to compel school boards to admit all Indian children who apply for admission to the Territorial schools.

REMEMBER, THOSE WHO ARE EXPLOITING THE INDIANS ARE WELL ORGANIZED AND FINANCED.

Unless those who are opposed to having Indians in the Legislatures and white schools and on juries, also organize, the Indians are certain to have the balance of power.

An opportunity to keep the Indian in his place until he is better qualified to exercise all the privileges and assume all the duties of the whites; and to keep him here for his own good and the benefit of the Territory is afforded all Republican voters by supporting the undersigned at the primaries April 29th.
